

ZM Financial Systems, headquartered in Cary, NC, develops, sells and supports quantitative analytics software for fixed income and derivatives professionals in capital markets and banking. Our solutions provide trade analytics, risk analytics and asset/liability management to some of the world's largest and most sophisticated capital markets institutions. We are a fast growing, private company with a need for an Experienced Fixed Income Analyst.

Mandatory Requirement: We are seeking individuals who have three to five years' experience implementing/running asset liability management processing at a depository institution using one of the following systems: ZMdesk, QRM or Bancware.

Job Description:

This position will focus on Client Support, Training and Implementation, including:

- Listening to and documenting client issues
- Patiently educating clients on proper use of the product
- If product enhancement is necessary, specifying enhancement for developers and working with them to complete and test the enhancement.
- Loading, running and validating client data prior to implementation
- Assisting in on-site training and implementation for new clients

Additionally, ideal candidate will also perform Ad hoc Testing and Research, including:

- Reviewing and testing new software functionality
- Performing market related research on fixed income modeling topics
- Researching and documenting special client projects

Ideal Requirements:

- Fixed-income knowledge (duration, convexity, option-adjusted valuation, etc.)
- Moderate finance and accounting knowledge as used in banking
- Attention to detail is a must
- Moderate to advanced Excel skills
- Some database experience desired
- Desire to dig in, figure out and make recommendations
- Ability to work in an unstructured environment
- Good oral and written communication skills

Additional Skills:

- Prepared ALCO and risk management reports
- CFA and/or CPA
- Advanced degree in business

Job Type:

- Full-time

Required Experience:

- Implementing/running ALM using: ZMdesk, QRM or Bancware: 3 years

Submission:

- Please send cover letter and resume directly to: allyson.beback@zmfs.com
- Solicitations from third-party recruiters not accepted
